SUBJECT: Danfield Lot Line Adjustment SUB2014-00016 (1791)

Comments

The applicant proposes to reconfigure two existing parcels of 30.6 and 57.5 acres each to create two parcels of 30.5 and 57.6 acres each. The project site is located at 3751 Santa Domingo Road, east of Arroyo Grande. The project site is within the Agriculture land use category and had been used for residential and ranching purposes.

The Agriculture Department considers the proposal to be **equal to the existing parcel** configuration in terms of agricultural resources. This determination is based on a comparison of the proposed and existing parcels when considering potential long-term impacts to agricultural resources and operations.

Comments are based on current departmental objectives to conserve agricultural resources and to provide for public health, safety and welfare, while mitigating negative impacts of development to agriculture.

If you have questions, please call 781-5914.
